FAB 1.5" RETRO FIT

SuperStructure's New FAB 1.5" framing system for mounting FABrics & Vinyl with a full graphic face. An ideal solution for mounting updated graphics to an older "framed" sign system. The FAB 1.5" system is so slim and has a convenient mounting flange on the back for securing to existing bulkier frames to achieve a full graphic face with minimal investment.

Sleek anodized aluminum frames are simple to assemble and update graphics. The push in and pull out tab easily installs & changes the "wrinkle free" graphics without pockets or tension rods to deal with. A tool free graphic change out.

Custom made to your specifications. 1.5" frames are available as wall mounted, suspended and LED LIGHTBOX UNITS.
